

Dear Friends and Colleagues,

It is my great pleasure as President of the Hungarian Society of Allergology and Clinical Immunology (HSACI) to invite you to the Meeting of Middle-European Societies for Immunology and Allergology (MESIA) in Budapest, December 1-3, 2016.

This will be the third joint meeting of immunological and allergological societies in the Middle-European region (Austria, Czech Republic, Croatia, Hungary, Slovakia, Slovenia). The first, held in Vienna in 2010, was an outstanding success which was followed by the event in Opatija in 2013 which confirmed the high-level scientific interactions and proved the importance of a strong immunological network in Middle-Europe.

Joint meetings, such as MESIA 2015, provide one of the best opportunities to provide platform for meeting of researchers (particularly beneficial for young fellows), to facilitate collaboration between basic and clinical research in immunology and allergology and to increase potentials of the region for translational researches

On behalf of the Organizing Committee, I cordially invite you to join us in Budapest from December 1-3, 2016!

With best wishes,

Prof. Margit Zeher
President of the Organizing Committee
