Dear Colleagues,

This letter is to kindly remind all of you that the 23rd Semmelweis Symposium entitled Trends in Pulmonology – 2014 is approaching.

This Symposium will cover exciting topics of pulmonology by top international experts and their Hungarian collaborators. The session titles are listed in the Preliminary Program readable below. Please save the days in your diary and spend this special event with our guests speakers and the organizers.

Semmelweis University with its over two-hundred-year tradition and highly acknowledged reputation is an internationally known institute of higher education and research in medicine.

Lung diseases are among the most prevalent medical conditions causing premature death and chronic disability. There are, however, break-through developments in respiratory medicine, many of which will be covered during this Symposium.

Those who plan to join are kindly requested to register at info@misandbos.hu.

Registration, entrance and food service is free.

We look forward to seeing you in Budapest at this exciting scientific conference.

Sincerely yours

Professor György Losonczy
Chair of the 23rd Semmelweis Symposium

Preliminary program

November 6 (Thursday)

- 8:40 **Opening Ceremony**
