Buda room

WELCOME SPEECH, PAOLO PELOSI, ESA PRESIDENT

Foundations I

Chairperson: Andrew F. Smith

- How to get your research published
- Evidence into practice: how to read a paper and run a journal club
- Epidemiology, Tools and Team-Aspects of Patient Safety
- Philip Hopkins (Leeds, UK)
- Andrew F. Smith (Lancaster, UK)
- Sven Staender (Mannedorf, Switzerland)

Practice I

Chairperson: Michela Camorcia

- Perioperative pain management in the neurosurgical patient
- Difficult intubation and management of laryngospasm in children
- Practice guidelines for obstetric analgesia
- Concezione Tommasino (Milan, Italy)
- Walid Habre (Geneva, Switzerland)
- Michela Camorcia (Rome, Italy)

Foundations II

Chairperson: Patrick Wouters

- Monitoring guidelines in the perioperative period
- Pathophysiology and treatment of right ventricular failure
- Pharmacology of local anaesthetics
- Wolfgang Buhre (Utrecht, The Netherlands)
- Patrick Wouters (Gent, Belgium)
- Elisabeth Gaertner (Nice, France)

Practice II

Chairperson: Idit Matot

- Supportive and adjunctive therapy of sepsis
- Management of massive bleeding in the OR
- ARDS treatment
- Gernot Marx (Aachen, Germany)
- Idit Matot (Tel-Aviv, Israel)
- Michael Quintel (Göttingen, Germany)

Foundations III

Chairperson: Benedikt Pannen

- Pharmacokinetics and pharmacodynamics in clinical anaesthetic practice
- Preoperative assessment of pulmonary function
- Treating intracranial hypertension: what is evidence based?
- Claude Meistelman (Nancy, France)
- Hans Rothen (Bern, Switzerland)
- Benedikt Pannen (Düsseldorf, Germany)

Practice III

Chairperson: Paolo Pelosi

- Mechanical ventilation in morbidly obese patients
- Drugs and anaesthetic techniques in Day Case Anaesthesia
- Postoperative cognitive deficits in the elderly
- Paolo Pelosi (Varese, Italy)
- Jan Jakobsson (Stockholm, Sweden)
- Bernadette Veering (Leiden, The Netherlands)

Saturday, 6 November 2010

Erzsebet room

Buda room

Foundations IV

Chairperson: Claude Meistelman

- Non-invasive ventilation in the perioperative period
- Respiratory monitoring
- Residual relaxation: diagnosis, incidence and treatment
- Paolo Pelosi (Varese, Italy)
- Hans Rothen (Bern, Switzerland)
- Claude Meistelman (Nancy, France)

Practice IV

Chairperson: Lennart Christiansson

- The geriatric patient: the impact of anaesthetic choice
- Postoperative pain and emesis in Day Case Anaesthesia
- Opioids and adjuvants in regional anaesthesia
- Bernadette Veering (Leiden, The Netherlands)
- Jan Jakobsson (Stockholm, Sweden)
- Lennart Christiansson (Uppsala, Sweden)

Foundations V

Chairperson: Wolfgang Buhre

- The role of regional anaesthesia in perioperative care
- Perioperative medical support of the patient with severe myocardial dysfunction
- Perioperative neuromonitoring and outcome
- Elisabeth Gaertner (Nice, France)
- Patrick Wouters (Gent, Belgium)
- Wolfgang Buhre (Utrecht, The Netherlands)

Practice V

Chairperson: Gernot Marx

- Weaning from mechanical ventilation
- Re-evaluation of transfusion triggers
- Potential and pitfalls of minimal invasive haemodynamic monitoring
- Michael Quintel (Göttingen, Germany)
- Idit Matot (Tel-Aviv, Israel)
- Gernot Marx (Aachen, Germany)

Foundations VI

Chairperson: Sven Staender

- Eight Simple measures for patient safety and why we do not follow them
- Quality improvement approaches for anaesthetic practice
- Presenting your research
- Sven Staender (Mannedorf, Switzerland)
- Andrew F. Smith (Lancaster, UK)
- Philip Hopkins (Leeds, UK)

Practice VI

Chairperson: Concezione Tommasino

- New techniques of labor neuraxial analgesia
- Anaesthetic aspects of upper airway infection and ENT surgery in children
- Fluid management in the neurosurgical patient
- Michela Camorcia (Rome, Italy)
- Walid Habre (Geneva, Switzerland)
- Concezione Tommasino (Milan, Italy)
