EXPOSOME GRANT
VICHY

VICHY EXPOSOME GRANT

Application deadline:
September 2nd, 2019

Annual grant of 15 000€

The human body is subjected to respond to complex exposures including **environmental factors, our diet, lifestyle factors, and social influences.**

For this highly complex interaction, the term exposome was coined by **Dr. Christopher Wild** at the **International Agency for Research on Cancer, World Health Organization.**

The exposome is the **globality of the factors the human body is exposed to**, from conception onwards. It complements the genome.

Are you involved in skin Exposome research?

What if you competed for the **4th edition of the Vichy Exposome Grant?**

One Research Grant of 15,000€ is awarded annually to a research project in the field of exposome and skin.

The awardee will be announced during the **28th EADV Congress** in Madrid in October 2019.

Meet the jury

The applications for the VICHY EXPOSOME GRANT will be reviewed by an independent jury of experts chaired by **Professor Jean Krutmann** (Germany) and composed of **Professors Craig Elmets** (USA), **Haidong Kan** (China), **Thierry Passeron** (France), **Sergio Schalka** (Brazil).
