HANDS-ON LASER AND EBD TEACHING COURSE

26-27 January 2018 | University of Szeged
| Hungary

HANDS-ON LASER AND EBD

**Don't miss out on
this special event!**

After the great success of the previous editions in Florence and Geneva, ESLD presents its next Hands-On Laser and Energy Based Device Teaching Course

COVERED TOPICS

- **Laser tissue interaction**
- **Selective photothermolysis**
- **Fractional photothermolysis**
- **Energy Based Devices**

"I will change my practice according to what I've learnt here."

"Finally a useful practical training in a friendly atmosphere."

"Different lecturers, different approaches, plenty of knowledge!"

"As an academic dermatologist, I will teach this knowledge to my students."
