“International Conference on Interdisciplinary Management of Diabetes Mellitus and its Complications” aims to become a discussion forum and a meeting place for Researchers and Professionals in the study of diabetes.

It is notable that organizers desire to create an environment of excellence to promote original research papers in the field: by organizing this Conference annually, through debate and careful analysis of the results presented, by active involvement in their implementation in hospital.

This year’s Conference aims to highlight the multidisciplinary character of therapeutic management in diabetic chronic kidney disease.

International Conference on Interdisciplinary Management of Diabetes Mellitus and its Complications

Interdisciplinary Approaches in Diabetic
Chronic Kidney Disease
