This newsletter is specifically created for you, our active member societies and partners, to stay up to date with what is going on in the global endocrinology community. We would be delighted if you could share our news in your society's communication channels. If you would like us to share your society's news within our community, please send your proposals to [office@isendo.org](mailto:office@isendo.org)

## ISE UPDATES

### ISE General Council Meeting - 22nd/26th of October

We are delighted to invite you to this year's ISE General Assembly Meeting which will be held virtually on the 22nd OR 26th of October (Friday/Tuesday). To accommodate the international community and with respect to the different time zones we are organizing two meetings from which you can choose to attend either one.

We encourage you to register and participate as important matters of the society will be presented, such as the revised Strategy, the Governance modifications with voting on the amended Statutes, as well as an ISE Business update.

You received the invitation and the registration link for the meeting by email along with supporting documents for your review, but in case you are missing it - please contact us at [office@isendo.org](mailto:office@isendo.org)

### ISE Endocrinology Practice - Middle East 2021: successful first regional conference in collaboration with the EDES

We are excited to share that ISE, in collaboration with the EDES, held **the 1st ISE Endocrinology Practice – Middle East** on the 17-18th of September. This ISE

Endocrinology Practice is the first of a series of regional clinical-focused CME events planned every other year.

## Program

The two-day event brought best practices from world-renowned endocrinologists to the Middle East linked to local cases presented by experts from the region. This novel CME format was found interactive and valuable and many delegates shared it was truly relevant to the challenges that they meet on a daily basis.

## It's not too late to join

Participants can still register and access sessions on-demand on the platform, earn CME credits while enjoying the presentations from renowned international speakers and review complex case studies from the region.

Share the news with your members and invite them to register and access the content on-demand, learn from international and local faculty and take patient care to the next level.

## ISE Advocacy Working Group: kick-off and first meeting

At the end of September, twelve renowned international expert endocrinologists met for the kick-off meeting of the ISE Advocacy Working Group. They discussed future projects, focus areas, and opportunities for ISE to further develop in the international Advocacy arena.

ISE has already been involved in multiple projects with WHO, the NCD Alliance and other partners' activities, but now will also work with its members to support local and regional advocacy efforts where needed. Stay tuned for more news!

## ISE EDUCATION

ISE Educational efforts are ongoing throughout the year. Make sure to share the news about all ISE webinars and courses with your members as we develop high-quality accredited content with the help of esteemed international experts and it's all available for free to your society members.

### Upcoming Webinars in October and November

#### Where Endocrinology meets Nephrology Webinar

##### Understanding the complexities in managing bone disease in CKD

We would like to invite you to a joint webinar organized by the International Society of Endocrinology and the International Society of Nephrology as part of a mutual commitment to advance the management of overlapping endocrinology and kidney diseases worldwide.

##### The webinar will consist of two interactive parts:

- [Register for PART 1 on 26 October, 2021 \(14:00 CET\)](#): Understanding the complexities in managing Bone disease in CKD
- [Register for PART 2 on 3 November, 2021 \(13:00 CET\)](#): Management of Bone disease in CKD – Complex case scenarios

**\*One week after the webinar, a CME/CPD activity will be available on the ISE Global Education Hub together with the on-demand recordings. Stay tuned!**

The banner features the ISE (International Society of Endocrinology) and ISN (International Society of Nephrology) logos at the top left. A large orange button on the right says 'WEBINAR'. Below the logos, it says 'Register for PART 1 and PART 2'. The main title is 'Understanding the complexities in managing bone disease in CKD'. Below the title, there are two QR codes for registration: 'PART 1' on 26 October, 2021 (14:00 CET) and 'PART 2' on 3 November, 2021 (13:00 CET). On the right side, there are four speaker profiles with their names and titles: Bart Clarke (MD, Professor of Medicine, Mayo Clinic, Rochester, Minnesota, USA), Ellie Kelepouris (MD, FACP, FAMA, Professor of Clinical Medicine, University of Pennsylvania Perelman School of Medicine), Vivien Lim (Chair) (MBBS, MRCP, Endocrinologist practicing at Gleneagles Hospital, Singapore), and Angela Yee-Moon Wang (Co-chair) (QMS, PhD, FRCR, FRCGP, FRCP, Queen Mary Hospital, The University of Hong Kong, Hong Kong).

**Upcoming Webinar (11 November): Highly sensitive thyroglobulin and anti-thyroglobulin antibody measurement in DTC management**

In this webinar, Luca Giovanella (Switzerland) and Matt Ringel (USA) will review and discuss issues concerning analytical aspects of hsTg and TgAb measurement as well as issues pertaining to clinical consequences of these measurements.

**Save your virtual seat!**

**When:** Thursday 11th of November (15:00-16:00 CET)

[REGISTER HERE](#)

**\*One week after the webinar, a CME/CPD activity will be available on the ISE Global Education Hub together with the on-demand recordings. Stay tuned!**

*This activity is supported by an unrestricted educational grant from Thermo Fisher.*

**WEBINAR**

Highly sensitive thyroglobulin and anti-thyroglobulin antibody measurement in DTC management

11 November, 2021 (Thursday)  
15:00 - 16:00 CET

**Luca Giovanella, M.D.**  
University of Zurich, Zurich, Switzerland  
Erste Disziplinäre Klinik für Endokrinologie, Diabetikologie, Schweiz

**Matthew D. Ringel, M.D.**  
The Ohio State University College of Medicine and Comprehensive Cancer Center, United States

ise  
International Society of Endocrinology

This activity is supported by an unrestricted educational grant from **ThermoFisher SCIENTIFIC**

**Solve 3 interactive cases: Management of Pediatric Thyroid Nodules and Differentiated Thyroid Cancer (3 CME/CPD total credits)**

“I would like to invite you to access a series of online case studies I have developed on the Management of Thyroid Nodules and Differentiated Thyroid Cancer in pediatric patients, which are based on my professional experience with patients at the clinic”, Dr. Andrew Bauer. Watch Dr. Bauer’s personal invitation below:

The cases will help you identify different types of thyroid cancer in children and adolescents and provide you with tools to recognize when to biopsy a thyroid nodule and decide on the appropriate surgical approach. Each case is accredited by the European Accreditation Council for Continuing Medical Education (EACCME).

## ENDORSED ISE COMMUNITY EVENTS

ISE helps foster the globalisation and inter-regional development of existing national meetings by offering promotion, collaboration in joint symposia, guidance with the development of the program and speaker support to member societies all over the world through its ISE CME Meeting Support Program.

Learn more about the program and how you can apply through the [following link](#).

**You can see the most recent ISE supported events below.**

### SAFES MEET 2021 - Held virtually on the 2nd of October in collaboration with DEAN

On the 2nd of October the SAFES 2021 Virtual Meet was held- the congress of the South Asian Federation for Endocrine Societies ([SAFES](#)) in collaboration with the Diabetes and Endocrinology Association of Nepal (DEAN). It was an exciting one-day virtual meeting that attracted more than 1 400 delegates from the region.

ISE Endorsed the SAFES Meet and supported the program by inviting Dr. Cheri Deal who delivered a lecture on the topic of "Diagnosis and treatment of the poorly growing child".

If you are planning your regional or national meeting and you need support - do not hesitate to contact us at [office@isendo.org](mailto:office@isendo.org) or apply through the [ISE CME Meeting Support Program](#).

## UPCOMING MEMBERS EVENTS FOR 2021

**ESA/SRB/ANZBMS Virtual Annual Scientific Meeting**

We are delighted to welcome and invite all participants to join the 2021 Annual Scientific Meetings of The Endocrine Society of Australia, The Society for Reproductive Biology & The Australian and New Zealand Bone and Mineral Society which will be held virtually on **21-24 November 2021**. Additionally, the POC has brought together a program covering the most state-of-the-art advances in the fields of **Endocrinology, Reproduction and Bone and Mineral Research**, including awards sessions, oral presentations and poster abstracts. **Learn more and register through the link!**
