### ISE Endocrinology Practice - Middle East 2021: join us for our inaugural regional CME event, 17-18 September

We are excited to share that ISE is launching the Endocrinology Practice Series this year – a regional CME focused event which will be rotating around the world in alternate years between ICE Congresses.

This inaugural event, the **1st ISE Endocrinology Practice – Middle East**, will be held virtually on **17 and 18 of September** and is organized in collaboration with the Emirates Diabetes and Endocrine Society (EDES). Through the **clinical-based education program** you will learn the best diabetes and endocrinology practices from **international faculty**, will dive into **case-based discussions with local experts**, and will earn globally recognized CME credits.

## The 1st ISE Endocrinology Practice Middle East 2021

17-18 September | Virtual

[www.ISEpractice.com](http://www.ISEpractice.com) | [#ISEpractice2021](https://twitter.com/ISEpractice2021)

### Event Program and Faculty

Meet the internationally renowned speakers who will present at the 1st ISE Endocrinology Practice and will review local cases together with their colleagues from the Middle East. Check out the event Program and note it will be available for 3 months after the event!

### Early Bird Registrations

Registration rates start from \$59 only! There is less than a month to the early bird registration deadline (September 1, 2021) so why not register today?

Join our community; together we can make a difference and improve patients' lives.

## ISE Projects

### News and Updates

---

### ISE Early Career Group: kick-off and first meeting

At the end of July, twelve motivated and inspired young endocrinologists from all over the world met for the kick-off meeting of the ISE Early Career Working Group. Future projects, focus areas and possible opportunities for development were discussed.

Many ideas emerged on how they can support their early career colleagues globally and how they can add onto the already developed activities and projects. Stay tuned for more news about the group and all their upcoming plans.

---

### ISE Endorsed events around the world

ISE helps foster the globalisation and inter-regional development of existing national meetings by offering promotion, collaboration in joint symposia, guidance with the development of the program and speaker support to member societies globally through its ISE CME Program.

### DECON 2021 >>

For years **DECON** has been a trademark event in diabetes and endocrinology in India and the South Asia region and it continues this year with its 7th edition which will be held virtually on 20-22 August. ISE will support DECON with a joint symposium on 21st August in which Prof. Margaret Wierman, ISE Chair, will participate.

## ESI Sunday Series >>

Date	Topic	Speaker 1	Speaker 2	Speakers
18.07.21	Update on the latest evidence on the management of GH deficiency in children and adults	Dr. Peter Clayton (UK)	Dr. Charlotte Höybye (Sweden)	Dr. Peter Clayton (UK), Dr. Charlotte Höybye (Sweden)
25.07.21	Update on the latest evidence on the management of GH deficiency in children and adults	Dr. Peter Clayton (UK)	Dr. Charlotte Höybye (Sweden)	Dr. Peter Clayton (UK), Dr. Charlotte Höybye (Sweden)
01.08.21	Update on the latest evidence on the management of GH deficiency in children and adults	Dr. Peter Clayton (UK)	Dr. Charlotte Höybye (Sweden)	Dr. Peter Clayton (UK), Dr. Charlotte Höybye (Sweden)
08.08.21	Update on the latest evidence on the management of GH deficiency in children and adults	Dr. Peter Clayton (UK)	Dr. Charlotte Höybye (Sweden)	Dr. Peter Clayton (UK), Dr. Charlotte Höybye (Sweden)
15.08.21	Update on the latest evidence on the management of GH deficiency in children and adults	Dr. Peter Clayton (UK)	Dr. Charlotte Höybye (Sweden)	Dr. Peter Clayton (UK), Dr. Charlotte Höybye (Sweden)
22.08.21	Update on the latest evidence on the management of GH deficiency in children and adults	Dr. Peter Clayton (UK)	Dr. Charlotte Höybye (Sweden)	Dr. Peter Clayton (UK), Dr. Charlotte Höybye (Sweden)

## Metabesity Program

The term Metabesity expresses the links among diverse major diseases and conditions to shared metabolic roots - diabetes, obesity, and cardiovascular diseases, joined by neurodegenerative disorders, cancer, and even the aging process itself.

Begin this interactive program and learn about the basics and implications of Metabesity from a group of international experts.

**Click on the link below to access the first 2 modules of this program!**
