Spotlight on Safety:
How can long-term GH therapy risks be mitigated?

Peter Clayton (UK), Charlotte Höybye (Sweden), Margaret C S Boguszewski (Brazil)

Thursday, 2 September 2021
5:00 - 6:00 pm CEST

Are you familiar with the known and unknown safety risks in long-term GH therapy?

In this webinar, Peter Clayton (UK), Charlotte Höybye (Sweden) and Margaret C S Boguszewski (Brazil) will share the latest data on the short and long-term safety of pediatric and adult GH replacement.

Join this session to witness their discussions on how to improve the long-term safety of pediatric and adult GH replacement and recognize the safety challenges of novel GH therapy. Submit your questions to the experts in advance by registering today.

Save your virtual seat to the webinar and register today via the link below!
