

The 1st ISE Endocrinology

Practice **Middle East**

17-18 September 2021 | Virtual

Hyperandrogenic anovulation: differential diagnosis & treatment

Meet us online on Friday, 17 September at 11:00 AM Dubai time for Prof. Helena Teede's lecture "Hyperandrogenic anovulation: differential diagnosis & treatment".

She will talk about hyperandrogenic oligo-anovulatory disorders and will share which conditions are most common among women and are also typical for the Middle East.

Watch her video below to get a glimpse of what to expect.

About the ISE Endocrinology Practice Series

The ISE Endocrinology Practice is a conference hosted by ISE in collaboration with EDES and is the first of a series of biennial regional CME focused educational events rotating the world in the coming years. The aim of ISE is to establish the regional practice series as forum for endocrinologists regionally, to improve their knowledge and skills and apply internationally recognized best practices to the review of regional cases from their clinic.
