

2nd Meeting of Middle-European Societies for Immunology and Allergology

Thursday - Sunday
October 10-13
2013

Opatija, Croatia

Event & Initiative

The initiative to organize a second joint meeting of Middle-European societies for immunology and allergology, as a follow-up to the very successful meeting organized by Austrian Society for Allergology and Immunology (OGAI) in Vienna in 2010, was launched by the Croatian Immunological Society in early 2012. Upon a very warm reception by the invited societies, the Meeting was on course to take place in Opatija, Croatia, from October 10th through 13th 2013.

The underlying idea of the Meeting is to provide a communication platform for immunological and allergological societies in the region aimed at improving mobility and collaboration, particularly for the young members. The initiative is set to continue by adopting a regular schedule for this meeting to take place every third year, following the year of the ECI meeting, with societies taking turn in organizing the event every year at a different location.

So make sure you mark these dates on your calendars! Come and join us for the latest in immunology and allergology, the high-profile speakers and the splendour of Opatija!

Participating Societies

Austrian Society for Allergology and Immunology (OGAI)
Croatian Immunological Society
Croatian Society for Allergology and Clinical Immunology
