

## **2nd EAST BOHEMIA STRESS ECHOCARDIOGRAPHY COURSE 24. 4. 2021 GOES ON-LINE!**

Dear colleagues,

Stress echocardiography plays important role in ischaemia testing along with other stress imaging modalities as highlighted in the latest ESC guidelines on stable angina.

The one-day on-line course is designed for either beginners or experienced stress echo operators interested in ischaemia stress echocardiography. Lectures from international faculty on principles, indications, and practical aspects of running the stress echo service are accompanied by dedicated case report sessions.

For more and to register visit: **[www.stressechok.com](http://www.stressechok.com)**

We are indeed looking forward to meeting you on-line on 24<sup>th</sup> April, 2021.

Dr Karel Medilek FRCP
