WELCOME ADDRESS

M. KOMAJDA

Dear Colleagues,

On behalf of the Organising Committee, it is our distinct pleasure to announce the 1st edition of the **Heart, Vessels & Diabetes European Conference** to be held in the capital city of **Portugal, Lisbon, from 9 to 11 December 2010**.

B. CHARBONNEL

Our world is facing an epidemic of diabetes and obesity, a population at high risk of cardiovascular complications. It is therefore necessary to promote in depth discussions and collaborations amongst all the professionals concerned by the management of these patients: cardiologists, diabetologists, endocrinologists, nephrologists, neurologists and internists.

Our ambition is that the Heart, Vessels & Diabetes Conference becomes the European reference on both cardiovascular and diabetes related issues by the creation of a unified forum where all specialists will attend common sessions and share their experience. The scientific programme will include lectures, debates, clinical case presentations as well as industry symposia. European experts will discuss the latest developments of clinical trials and clinical research and will examine their implications for daily practice.

This event of very high scientific standard with a panel of European key opinion leaders will gather a large audience of about 2,000 practitioners in cardiology, diabetes, lipids, blood pressure and related fields. As you will read within this preliminary programme, the members of the Scientific Committee are among some of the most prestigious and renowned cardiologists, diabetologists and endocrinologists in order to ensure the highest scientific level to the sessions.

The Organising Committee of the 1st edition of the Heart, Vessels & Diabetes European Conference has appointed PLB. Organisation Inc. as the official Conference Office, entrusted with the handling of all conference related arrangements. For any information, please do not hesitate to contact PLB. Organisation Inc. at: hvd2010@agence-plb.com.

Looking forward to welcoming you in Lisbon in December 2010, we remain.

Yours sincerely,

Michel KOMAJDA
