

International Congress of Immunogenomics and Immunomics

<http://www.bcii2006.org/>

October 8-12, 2006, Budapest, Hungary

Dear Colleague,

There are only a few months left to register to attend the International Congress of Immunogenomics and Immunomics (www.bcii2006.org).

The BCII 06 providing systems biology approach in immunology will bring together immunologists, bioinformaticians, researchers, clinicians and engineers to present and discuss the latest developments in genomics, proteomics, bioinformatics, and instrumentation, and their application to basic and clinical immunology. This multidisciplinary meeting will ensure an exciting exchange of ideas and will help bridge the gap between previously separated fields.

Keynote Speakers:

Hans-Georg Rammensee (Tuebingen, Germany)

Paolo Casali (Irvine, USA)

Alessandro Sette (San Diego, USA)

Laszlo Patthy (Budapest, Hungary)

Franco M Marincola (Bethesda, USA)

List of symposia:

- * Gene networks and systems biology in immunity
- * Systems modelling, computational immunology
- * Artificial immune systems and other biologically-inspired paradigms
- * Immune databases and database tools
- * Intelligent vaccine design
- * Immuno-gene therapy
- * Genetic redirection of lymphocyte function
- * Pharmacogenomics and drug development in immune diseases
- * Deciphering immune intracellular signalling pathways
- * Oncogenomics, antitumor immunome
- * Autoimmunity, autoimmune immunome
- * Pathogen analysis, infection genomics and prediction of immune-pathogen interactions
- * Allergy genomics, allergome (allergen immunome)
- * Mast cell and basophil genomics (immune-cellome)
- * Neuro-immuno genomics
- * Inflammation genomics

Satellite meeting on junk DNA and micro RNA in immunity: European Inaugural of the International PostGenetics Society

Tutorial: Bioinformatics for autoimmunity

Poster sessions, further tutorials and satellites, network meetings will be organized.

The deadline for submission of abstracts is 30th of April and for early registration 30th of June, 2006.

The abstracts will be reviewed by an International Program Committee and the best submissions will be selected for oral presentation at the Symposia. Bursaries to cover registration fee for young scientists are offered by the European Federation of Immunological Societies. For details please visit the home-page of the Conference (www.bcii2006.org).

Please bring this conference to the attention of your colleagues who may benefit from attending!

For a detailed agenda and on-line registration please visit <http://www.bcii2006.org/>

Prof. Andras Falus (faland@dgci.sote.hu)

Prof. Vladimir Brusic (v.brusic@uq.edu.au)

Dr. Zoltan Prohaszka, Congress Secretary (prohoz@kut.sote.hu)
