INFORMATIONAL LETTER

On March 24 and 25, 2011 with the aid of the European Society for Trauma and Emergency Surgery and Pirogov State Medical **University II International Congress of traumatologists and orthopedists** “The Road Traffic Accidents injuries and their Sequels: pitfalls, mistakes and complications in treatment” will take place in Moscow.

Venue:

Russian Academy of State Service under the President of the Russian Federation (Moscow, Prospect Vernadskogo, 84).

Program of the Congress

Assistance to the injured on the first day of injury: emergency measures for open injuries, methods of stabilization of fractures, non-operational treatment effectiveness are scheduled for discussion on March 24; On 25 March - complications and consequences of an injury: methods and timing of wound closure, reconstructive surgery, prophylaxis and treatment of venous thromboembolic complications. Details of the program are in the section [program and report abstracts](#)

The exhibition “**Modern technologies in traumatology, orthopedics, trauma surgery and intensive care**” will take place during all days of the Congress. You can get acquainted with new achievements and advanced technologies of the field. And it is an excellent opportunity for exhibition participants to show their products, explore the competitive environment and to sign contracts with customers.

Also symposia and round tables are supposed to be held in the framework of the Congress, where leading experts will share their experiences of treatment and rehabilitation of their patients.
