Shoulder & Elbow Surgeons
AHSES

Word of Welcome

Dear participants,

It is a great pleasure to welcome you at our first Central & Eastern European Shoulder Cadaver Course in Budapest. We are looking forward to a very interactive course with a high faculty-to-participant ratio to ensure an effective and personal atmosphere throughout the program. Please do not forget to bring some of your own interesting shoulder arthroplasty cases to allow us to have interesting case discussions!

Jenő Kiss MD, PhD

Chairman of Eastern European Support Committee of SECEC-ESSE (European Society for Surgery of Shoulder and Elbow)
Chairman of AHSES (Association of Hungarian Shoulder & Elbow Surgeons)

Program

Tuesday, March 30, 2010

12.00	Registration and light lunch	
12.30	Welcome and introduction	J. Kiss
	Lectures and discussions – part I	
12.40	Shoulder anatomy, function, scores etc.	J. Kiss
13.00	Shoulder arthroplasty in trauma indications	M. Wambacher
13.20	Case discussions – part I	
13.35	Shoulder arthroplasty in degenerative indications	J. Kiss
14.00	Case discussions – part II	
14.20	Surgical approaches, soft tissue management, safe and reproducible access to glenoid	S. Lambert
14.40	Break	

Cadaveric exercises – part I: Approach and Glenoid exposure		
15.10	Introduction	S. Lambert
15.20	Superomedial corner	
16.00	Inferoanterior surface	
16.40	Axillary nerve	
17.20	Quadrilateral space	
18.00	End of first day	
19.30	Course dinner	

Wednesday, March 31, 2010

08.00	Recapitulation of day 1	J. Kiss
Lectures and discussions – part II		
08.15	Proximal humerus geometry, Epoca design rationale	S. Lambert
08.40	Epoca Resurfacing Head	M. Wambacher
09.00	Epoca Stem in degenerative indications	S. Lambert
09.20	Epoca Glenoid	S. Lambert
09.40	Epoca Stem in trauma indications	M. Wambacher
10.00	Break	
Cadaveric exercises – part II: Implantation of Epoca implants		
10.30	Resurfacing Head	M. Wambacher
11.00	Glenoid	S. Lambert
11.30	Stem (degenerative)	S. Lambert
12.00	Stem with Tubercable (trauma)	M. Wambacher
Course closure		
12.30	Summary and wrap-up	J. Kiss
13.00	Farewell lunch

Kaposi Mór Hospital
Department of Orthopaedics
Kaposvár, Hungary

Markus Wambacher MD
Medical University Hospital of Innsbruck
Department of Traumatology and Sport Injuries
Innsbruck, Austria

Gábor Árva MD
Erzsébet Hospital
Department of Traumatology
Sopron, Hungary

Workshop Content

This two-day course is aimed at orthopedic and trauma surgeons with experience in shoulder joint replacement. Predominantly, it is a practical course demonstrating surgical anatomy, approaches etc, but it is also intended to provide further understanding of concepts and biomechanics in shoulder joint replacement, and help the participants to choose the most appropriate implant for each individual patient. The structure of the course involves short lectures, practice on cadaveric specimens and case discussions.

Participants

18

Venue

Szent Janos Hospital
Patology department
1125 Budapest
Diós árok 1-3
Hungary
