

WELCOME ADDRESS

Dear colleagues,

At the beginning of the new millennium, hip revision arthroplasty is primarily distinguished by a multiplicity of developments in surgical techniques and deployed prosthesis systems. However, the newly elaborated, technologically sophisticated prosthesis components necessitate both a precisely diagnosed indication and a technically correct implementation.

At the 15th EFORT IC Berlin, practical aspects of surgical procedures in individual cases will be elucidated and discussed within the framework of a live operation, workshops and a large number of clinical and radiological case studies.

We are extremely pleased to have engaged numerous eminent key speakers, renowned for their competence in the field and their outstanding presentations, to address you during the course of these two days.

EFORT cordially invites you to participate at an outstanding Instructional Course in Berlin and EFORT is full of thanks that this course can be held in the Charité Clinic on the 19th and 20th of October.

We therefore invite you to come to this historical European city to meet your colleagues, to listen to and discuss excellent lectures and get trained for your daily duties.

Yours,

Prof. Dr. W. Puhl Prof. Dr. N. Haas Prof. Dr. C. Perka
EFORT President Local Chairman Local Chairman

PROGRAMME

FRIDAY, 19 OCTOBER 2007

- | | | |
|------|-------------------------------|------------------|
| 8.00 | Registration and refreshments | |
| 9.00 | Opening and welcome | W. Puhl, N. Haas |
| 9.05 | About EFORT | W. Puhl |

THE REVISION ACETABULUM: DEALING WITH BONE LOSS

- Moderators: J. Grifka, B. W. Schreurs
- | | | |
|-------|---|-----------------|
| 9.15 | The revision burden | K.-G. Thorngren |
| 9.25 | Biomechanics in planning of revision THA | G. Duda |
| 9.40 | Indication of a revision:
when must a revision take place? | B. Fink |
| 9.50 | Classification of bone defects –
what does really work? | J. F. Löhner |
| 10:00 | Limitations for use of standard implants
in revision acetabular hip arthroplasty | R. Neugebauer |
| 10:10 | Impaction grafting in acetabular revisions | B. W. Schreurs |
| 10:20 | Discussion | |
| 11:00 | Break | |

MANAGING MASSIVE ACETABULAR BONE LOSS

- Moderators: P. Kirschner, I. Udvarhelyi
- | | | |
|-------|---|---------------|
| 11.30 | Techniques for component removal | I. Udvarhelyi |
| 11.40 | Management of large segmental acetabular
bone defects using jumbo cups | R. Ascherl |
| 11.50 | Reconstruction of acetabular defects
using pedestal cup | St. Tohtz |
| 12.00 | The use of allograft for reconstruction
of large acetabular defects | R. Neugebauer |
| 12.10 | The Burch-Schneider reinforcement ring
in revision THA | N. Böhrer |
| 12.20 | Trabecular Metal Technology and clinical
experience with the TMT Revision Cup and Augments | C. Perka |
| 12.30 | Discussion | |
| 13:30 | Lunch | |
| 14:30 | Workshops | |
| 16:15 | Break | |

PROGRAMME

PRO AND CONTRA SESSION

- Moderators: K.-G. Thorngren, F. Benazzo
- | | | |
|-------|--|---|
| 16.45 | Oblong cups in the treatment of extended superior wall
defects – a rationale concept in revision arthroplasty | Pro: F. Benazzo Contra: B. W. Schreurs |
| | Discussion | |
| 17.20 | On-stage revision of the infected hip | Pro: G. v. Förster Contra: M. Krbec |
| | Discussion | |
| 18.00 | End | |
| 18.30 | Dinner | |

SATURDAY, 20 OCTOBER 2007

ACETABULAR REVISION ARTHROPLASTY – LIVE OPERATION

- Moderators: N. Böhrer, H.-P. Sieber
- | | | |
|-------|---|-------------------------|
| 8.15 | Introduction to Live Surgery – case demonstration | O. Hasart |
| 8.30 | Live Surgery from the operating room | |
| | Surgeon: C. Perka Moderator: J. Löhner | |
| | Non-modular stems: the Wagner SL Revision Stems | J. Löhner
experience |
| | Modular revision stems: the press-fit principle | H.-P. Sieber |
| 10.45 | Break | |

CONTROVERSIAL ISSUES IN REVISION ARTHROPLASTY

- Moderators: B. W. Schreurs, N. Haas
- | | | |
|-------|--|-------------------|
| 11.15 | The management of recurrent dislocation | U. Munzinger |
| 11.30 | Managing the painful hip | I. D. Learmonth |
| 11.45 | Periprosthetic fractures – treatment options | N. Haas |
| 12.00 | Indications for the total femur | Ch. Friessecke |
| 12.15 | Interactive case discussion | C. Perka |
| 12.45 | Break | |
| 12.55 | Workshops | |
| 14.55 | Closing | W. Puhl, C. Perka |

MODERATORS AND FACULTY

MODERATORS

- Prof. Dr. F. Benazzo, Pavia, Italy
Prof. Dr. N. Böhrer, Linz, Austria
Prof. Dr. J. Grifka, Bad Abbach, Germany
Prof. Dr. N. Haas, Berlin, Germany
Prof. Dr. P. Kirschner, Mainz, Germany
PhD Dr. B. W. Schreurs, Nijmegen, Netherlands
Prof. Dr. H.-P. Sieber, Biel, Switzerland
Prof. Dr. K.-G. Thorngren, Lund, Sweden
Dr. I. Udvarhelyi, Budapest, Hungary

FACULTY

- Prof. Dr. R. Ascherl, Schwarzenbruck, Germany
Prof. Dr. F. Benazzo, Pavia, Italy
Prof. Dr. N. Böhrer, Linz, Austria
Prof. Dr. G. Duda, Berlin, Germany
Prof. Dr. B. Fink, Markgröningen, Germany
