EPOS-EFORT

BAT Programme

Core Curriculum in Childrens Orthopaedics

EPOS Educational Committee has set up "EPOS BAT Educational Programme". The programme meets the demands required by the European Board of Orthopaedics and Traumatology (EBOT). The acronym BAT arises from **B**asic-, **A**dvanced- and **T**raumatology Courses. These courses together constitute "BAT Educational Programme" and aim to facilitate a problem-solving approach in the diagnosis and management of orthopaedic conditions in children informed by relevant research evidence.

BAT – Basic, Advanced and Traumatology Educational Programme in Childrens Orthopaedics

A module of two Basic Courses in combination with one Traumatology Course covers the core curriculum in Children's Orthopaedics. Advanced Courses are primarily designed for Children's Orthopaedic Surgeons who manage children's orthopaedic conditions in a highly specialised setting. Course teaching Faculties are composed of highly internationally recognised specialists in Childrens Orthopaedic from all over Europe.

Education in the focus!

The EFORT FOUNDATION supports 10 scholarships for the Core Curriculum in Paediatrics. To apply send us an e-mail indicating what your motivation is to participate in the BAT Programme and submit your CV. Applications are received at: ic@efort.org.

Welcome

Grill

Manuel
Cassiano-Neves

Dear Colleagues,

It is a pleasure to welcome you to the first EPOS-EFORT IC which constitute an integrated part of "EPOS BAT Educational Programme". The course aims at General Orthopaedic Surgeons, particularly young ones, who want to improve their knowledge in Children's Orthopaedics. The syllabus should contribute to knowledge-sharing and a further understanding of Children's Orthopaedics.

EPOS Educational Committee has set up "EPOS BAT Educational Programme". The programme meets the demands required by the European Board of Orthopaedics and Traumatology (EBOT). The acronym **BAT** arises from **B**asic-, **A**dvanced- and **T**raumatology Courses. These courses together constitute "EPOS BAT Educational Programme" and aim to facilitate a problem-solving approach in the diagnosis and management of orthopaedic conditions in children informed by relevant research evidence.

A module of two Basic Courses in combination with one Traumatology Course covers the core curriculum in Children's Orthopaedics. Advanced Courses are primarily designed for Children's Orthopaedic Surgeons who manage children's orthopaedic conditions in a highly specialized setting. Course teaching Faculties are composed of highly internationally recognized specialists in Children's Orthopaedics from all over Europe and USA. This first Basic Course includes growth, biology, milestones, foot disorders, hip disorders, leg length discrepancy and torsional deformities combined with workshops, panel discussions and case presentations by participants. The Industry is an important partner in this programme. Innovation in hardware and treatment procedures for children often has its basis in clinical work. That is why we need close collaboration with the industry in this field.

We invite all orthopaedic surgeons to come to Vienna in May 2011 and join us at the Orthopädisches Spital Speising at the heart of Europe. We will do our utmost to meet and exceed your expectations and we look forward to welcoming you!

Yours,

Bjarne Møller-Madsen

Programme

Wednesday 18 May 2011

Schedule	Topic	Faculty
7:30	Registration	
8:00	Opening and welcome	B. Møller-Madsen M. Cassiano-Neves
8:10	The BAT programme	B. Møller-Madsen M. Cassiano-Neves
8:30	About EFORT	M. Cassiano-Neves

Growth – Biology – Milestones – Clinical Examination

Moderator: Andrew Wainwright

8:45	Growth	D. Anticevic
9:00	Biology	M. Gottliebse
9:20	DEV milestones	M. Cassiano-Neves
9:30	Clinical Examination	W. M. Strobl
10:00	Coffee break	

Foot disorders (0 – 1 year)

Moderator: Franz Grill

10:30	Normal growth, evaluation	M. Cassiano-Neves
11:00	Calcaneovalgus, metatar, varus	D. Anticevic
11:10	Clubfoot incl. relapsed clubfoot	G. Pagnotta / C. Radler
12:00	Vertical talus	C. Radler
12:15	Polydactyli, syndactyli, digitus superponens, curly toes	A. Wainwright
12:40	Discussion	
13:00	Lunch / Symposium	

Programme

Wednesday 18 May 2011

Foot disorders (1 – app 9 year)

Schedule	Topic	Faculty
Moderator: Manuel Cassiano-Neves		
14:00	Pes planus: flexibel	G. Pagnotta
14:10	Pes planus: stiff	B. Møller-Madsen
14:25	Pes cavovarus	M. Paterson
14:45	Painful foot (hallux valgus)	G. Pagnotta
15:00	Discussion	
15:30	Coffee break	
16:00	Workshops – Rotation system	
17:30	Foot cases: presented by audience	
18:00	End of the day	
20:00	Research in Childrens Orthopaedics	

Thursday 19 May 2011

Hip disorders

Moderator: Mark Paterson

8:00	Anatomy, normal development	B. Møller-Madsen
8:15	Clinical examination	M. Paterson
8:25	Diagnostics: sonography, arthrography, X-rays, CT/MRI scan, gait analysis	A. Roposch
9:00	Hip screening - birth to adolescence	M. Paterson
9:15	Discussion	

Hip disorders (0–1 year) – DDH before walking age

Moderator: Rüdiger Krauspe

9:30	Etiology, epidemiology, pathology	A. Roposch
9:45	Management: closed, open (medial / lateral approach)	M. Cassiano-Neves
10:15	Discussion	
10:30	Coffee break	

Programme

Thursday 19 May 2011

Hip disorders (1–9 year) – DDH after walking age

Schedule	Topic	Faculty
Moderator: Rüdiger Krauspe		
11:00	Etiology, epidemiology, pathology	A. Roposch
11:15	Management: closed, open (pelvic /and femoral osteotomy)	A. Wainwright
11:45	Discussion	

Perthes disease

Moderator: Mark Paterson

12:00	Etiology, epidemiology, pathology, diagnosis, classification	M. Paterson
12:20	Management incl. sequelae, prognosis	A. Wainwright
12:40	Discussion	
13:00	Lunch / Symposium	

Hip disorders (9–15 year) – SCFE

Moderator: Mark Paterson

14:00	Etiology, epidemiology, pathology, diagnosis, classification	R. Krauspe
14:20	Management incl. sequelae, prognosis	R. Krauspe
14:40	Discussion	
15:00	Coffee break	
15:30	Workshops – Rotation system	
17:00	Hip cases: presented by audience	
17:30	End of the day – Departure to Dinner	
19:00	Course Dinner	

Programme

Friday 20 May 2011

Leg length discrepancy & Torsional deformities

Schedule	Topic	Faculty
Moderator: Manuel Cassiano-Neves		
8:00	Etiology, Incidence	R. Ganger
8:15	Normal development of lower limb	R. Ganger
8:30	Growth prediction	P. Lascombes
8:45	Deformity analysis	P. Lascombes
9:00	Discussion	
9:15	Workshops – Rotation system	
10:45	Coffee break	

Genu varum and genu valgum

Moderator: Rudolf Ganger		
11:15	Etiology, incidence, diagnosis	R. Ganger
11:30	Management (incl. hemiepiphysiodesis, osteotomy)	P. Lascombes
11:45	Discussions	
12:00	Lunch / Symposium	

Principles of callus distraction

Moderator: Manuel Cassiano-Neves		
13:00	Principles of callus distraction	
15:30	Discussion	

Lengthening procedures and complications

Moderator: Manuel Cassiano-Neves		
13:30	Femur lengthening (indication, management, complications)	R. Ganger
14:15	Tibial lengthening (indication, management, complications)	P. Lascombes
15:00	Discussion	
15:30	Take home message	B. Møller-Madsen
15:45	Forecast Trauma course October 2011	B. Møller-Madsen
16:00	End of the course evaluation & certificates
