INSTITUTE

Welcome to the Johnson & Johnson Institute

The CEE 360° Around Knee Specialty online event is a scientific event organized periodically by Johnson & Johnson in the field of orthopedics.

The online event will enable specialists to update their existing knowledge and skills in order for them to remain at the forefront of the profession, both in terms of competitiveness and clinical knowledge.

The CEE 360° Around Knee Specialty online event is bringing surgical aspects, best practices and experiences from recognized faculties to one place. At this event surgeons will gain a lot of knowledge on how to develop, elevate or increase their surgical skills even further to ensure best patient outcome.

We will focus on procedures and patient conditions where our technology brings additional value in addressing main complications or controversies in knee surgery.

We wish you an enjoyable and fruitful event!

CEE DePuySynthes Professional Education Team

Johnson & Johnson Institute

Chairman

Zoltán Bejek MD, PhD

Qualification: Orthopedic specialist (2002)

Scientific degree: PhD (2010)

Workplace: Orthopedic Department, Semmelweis University, Budapest

Position: Associate professor

Spoken languages: English, Spanish, Hungarian

Professional interest: hip surgery - primary and revision arthroplasty; knee surgery - ligament repair, arthroscopic surgery, primary and revision arthroplasty

Educational activity: pre/postgraduate education at Semmelweis University

Membership and other activities: Hungarian Orthopedic Association - Member of Board of Directors; Member of the Hungarian Paralympics Committee; Leader of the Medical Committee of the Hungarian Paralympics Committee; Physician of the Sport Association of Hungarian Disabled.

Chairman

Paweł Olszewski MD

Qualification: Orthopedic Specialist (2012)

Scientific Degree: MD

Workplace: Department of Trauma and Orthopedic Surgery and Rehabilitation in Mazovia Bródno Hospital in Warsaw, and the Department of Trauma and Orthopedic Surgery, Jan Kochanowski University Kielce.

Position: Senior Assistant

Professional Interest: Performs about 500 procedures a year – primary knees and hips (DAA) and revision surgeries. He promotes implementation of Fast Track Recovery in everyday practice and is a national and international trainer of minimally invasive techniques in primary arthroplasty of knee and hip joints.

His motto: He believes that the surgeon shouldn't stop trying to improve his skills, learn from the experience of others and be open to the possibilities offered by new technologies.
