

Young
Psychiatrists
Network

Dear members of the board of the Hungarian Psychiatric Association,

We are contacting you regarding the 2nd World Congress of Early Career Psychiatrists - "Bridging science and culture" -, a meeting that will take place in Athens, Greece, on 20-23 October 2016 and is organized by the WPA - ECP section, the EPA – ECP committee, and the Young Psychiatrists' Network (YPN), while several national ECP associations will be co-organizers and collaborators.

The 1st Congress was held in Cairo, Egypt, from 9-11 January 2013, with the theme "Towards Professionalism in Psychiatry", and was organized by the Early Career Psychiatrists section of the Egyptian Psychiatric Association.

The aim of the upcoming congress is to facilitate the sharing of knowledge and experiences between early career psychiatrists from all over the world, as well as to establish new networks and beautiful friendships.

We would like to invite the Hungarian Psychiatric Association, and its Early Career Psychiatrists / Trainees Section, to participate in the 2nd World Congress of Early Career Psychiatrists as a collaborator association. Your participation would really be a privilege to the meeting.

If you accept the invitation, your association may participate with at least one symposium, while one member of your council will join the scientific committee of the Congress.

For any questions regarding our invitation and the congress, feel free to contact us in this mail address.

Looking forward to hearing from – and collaborating with - you,

With best regards,

Hussien Elkholy, Congress Honorary President, WPA ECPs section Chair

Raphael Psaras, Congress President, YPN Board Chair

Olivier Andlauer, EPA ECP committee Chair

Athanasios Kanellopoulos, Congress Vice-President

Nikolaos Kokras, Congress Chair of Scientific Committee
