THE OFFICIAL JOURNAL OF THE WORLD FEDERATION OF SOCIETIES OF BIOLOGICAL PSYCHIATRY

# The World Journal of Biological Psychiatry

The aim of *The World Journal of Biological Psychiatry (WJBP)* is to increase the worldwide communication of knowledge in clinical and basic research on biological psychiatry. Its target audience is thus clinical psychiatrists, educators, scientists and students interested in biological psychiatry.

The composition of *WJBP*, with its diverse categories that allow communication of a great variety of information, ensures that it is of interest to a wide range of readers.

The *WJBP* is a major clinically oriented journal on biological psychiatry. The opportunity to educate (through critical review papers, treatment guidelines

and consensus reports), publish original work and observations (original papers and brief reports) and to express personal opinions (Letters to the Editor) makes the *WJBP* an extremely important medium in the field of biological psychiatry all over the world.

The *WJBP* is the official journal of the World Federation of Societies of Biological Psychiatry (WFSBP) [www.wfsbp.org](http://www.wfsbp.org).
