The newsletter is specifically created for you, our active member societies and partners, to stay up to date with what's going on at ISE. We would be delighted if you could share our news in your society's communication channels. If you would like us to share your news with the global endocrine community, send your proposals at office@isendo.org

ISE UPDATES

ISE's response to the COVID-19 Pandemics

Dear Colleagues,

The Coronavirus (COVID-19) pandemic is evolving very rapidly and as you are well aware people with endocrine conditions, particularly diabetes are highly exposed to it.

As a global society, ISE's vision is to ensure optimal lifelong health for people living with endocrine conditions. We can do that together as a united endocrine community. As this is a novel disease with very few guidelines and scientific materials available, we propose to start sharing information, guidance and good practice to help each other. We would like to do this together with you, in collaboration with our members, partners and other sister societies.

Find out how to join efforts with us on the link below!
