This newsletter is specifically created for you, our active member societies and partners, to stay up to date with what is going on in the global endocrine community. We would be delighted if you could share our news in your society's communication channels. If you would like us to share your news with the global endocrine community, send your proposals to [office@isendo.org](mailto:office@isendo.org)

## ISE UPDATES

### Meet Helen van Oers - the new Executive Director of ISE

Helen comes with more than 20 years international experience in Association Management. She started her career in 1996 at the Hilton International sales office in Brussels, focussing on the association congress market. She joined MCI in 1999 and since then has managed an array of non-profit client organisations. In 2017 Helen took up the position of Operations Director at YPO, leading the networks organisation of young entrepreneurs.

## ISE EDUCATION

### Successful ISE GLP-1 Webinar with top experts in the field

On the 26th of January ISE held an interactive Ask the Experts Webinar with top experts exploring **the role of GLP-1 RAs in the current landscape of incretin therapies for type 2 diabetes.**

The Webinar was a huge success with more than 900 interested registrants, 350 participants joining live and over 45 questions asked during the Q&A session following the interactive case-based discussion around Diabetes Management.

The recording will soon be available on the ISE Global Education Hub along with a CME-accredited case study - all for free to your members! Stay tuned.

### Patient #1

52-year female with type 2 diabetes for 9 years is admitted to the vascular surgery service for evaluation of cellulitis in the left foot. She has blockage in the left femoral-popliteal system. Information about her diabetes management:

- BMI 36, A1C 8.9, Creatinine 1.2
- Glargine insulin and Insulin aspart aspart as an outpatient
- Hypoglycemia 1X/week - usually in the afternoon.

- At one-month post-discharge, would you advise modification to her therapy or management?
- If so, what and why?

## ISE ADVOCACY EFFORTS

From 9 to 11 December 2020, ISE was invited to participate in the **WHO Informal Consultation on People Living with NCDs**. This WHO consultation is the first focusing on meaningful engagement of PLWNCDs and, will be complemented with additional global and regional consultations and activities across 2021 and 2022. ISE was invited to represent the global community of endocrine health care professionals.

It was represented by Susan Mandel from the USA, Fatheya Al Awadi from the UAE and Pedro Nel Rueda from Colombia. Learn more about the meeting through the link.

**RENEW YOUR ISE MEMBERSHIP FOR 2021**

It has been a very special year full of challenges for all of us and ISE remains committed more than ever to federate the endocrine community across the world as the “united nations of endocrinology”. We represent many large and smaller endocrine societies globally with very different interests and levels of development. We count on your input and support in 2021 allowing us to continue giving back and supporting our global members with all our activities.

You will soon receive an email from our Membership Coordinator (membership@isendo.org) with more details on the renewal of your membership for 2021. We look forward to continue our collaboration with you in 2021!

---

### GOING VIRTUAL?

We continue to promote our communities' events, congresses as well as education and scientific exchange opportunities, so don't hesitate to send us an overview of your activities and share your initiatives at [office@isendo.org](mailto:office@isendo.org)
