4th March 2022

to the Ukrainian Society for Physical and Rehabilitation Medicine

Dear Prof. Oleksandr Vladymyrov, President of the Ukrainian Society for PRM

Dear Prof. Volodymyr Golyk, Secretary general of the Ukrainian Society for PRM,

As UEMS Section and Board, we promote the harmonization of rehabilitation across the countries in the idea that Science does not have a border. We are collaborating to promote rehabilitation in Ukraine supporting the process of implementation of the European model. We wish to assure you that we are very willing to start collaborating with you to develop PRM training in Ukraine according to the principles, standards and certification rules of the European PRM Board.

Moreover, we will strongly support you if you wish to apply for the conditional endorsement of training programmes. We want to go on in this support despite the worsening situation.

In Europe, we thought that the days of war on our territory were gone, but it was evidently only a hope. Unfortunately, today, we are facing an aggression on Ukraine which is not acceptable. As scientists we cannot accept any war, and we must support peace as humans. We are feeling very close to our Ukrainian friends we support them in any aspect needed. In parallel, we must work for peace in Ukraine and in the world as the base to support science and, in general, to promote peace and freedom.

Nikolaos Barotsis

President of UEMS-PRM Board.

Mauro Zampolini

President of UEMS-PRM Section
